

Care About Childcare

Dear Child Care Provider:

The Utah Office of Child Care is developing a new **Child Care Quality System (CCQS)** that will be phased in beginning October 2019. This new system supports parents in making informed choices on child care programs that will better prepare their child for kindergarten and life. This system will also ensure government child care subsidies are supporting quality programs.

To view a fact sheet with information regarding the CCQS, click [HERE](#).

As part of CCQS, a new quality rating will be implemented for child care providers. For us to better support providers that want to achieve a higher rating, we need your help understanding the costs it takes to manage the quality of your program. Please review the proposed CCQS framework [HERE](#) and then click [HERE](#) to take the survey. It will take 15-20 minutes to complete.

All information will remain confidential and used only for the purpose of determining costs for quality.

Thank you for your help and all your efforts in caring for Utah's children!
