Guidance & Emotional Wellness, Course 4: Social & Emotional Teaching Strategies

- ✓ Choose and complete **four** of the following assignments:
- ✓ Answer all parts of the questions that you choose.
- ✓ Represent what you have learned while participating in the *Guidance & Emotional Wellness* class.
- ✓ Your answers need to be in depth, but try to contain them to one page.

1. Describe why you think it is important to understand the causes behind a child's behavior. How will you use this type of information in the future when dealing with children's behavior?
2. Describe a situation when you have dealt with a child's behavior. Identify which temperament was being displayed. How did you respond to the behavior? Would you change anything in dealing with this child in the future knowing the child's temperament? Explain.
3. List at least three ways you can help a child express their feelings in a healthful way. Create a book list that deals with children's emotions (at least 5 books). Name the book, author, and way the emotion is presented.
4. Create an individual plan for a child's behavior in your care (change the name of the child or describe as 2 year-old girl, etc.). Use the template from Session 3, Handout #1. Try out your plan and record the results. Would you use this process again? Why or why not?
5. Describe how you would adapt the environment of your business for an aggressive (1) and anxious (2) child. Include a floor plan with the adjustments noted. What suggestions might you make to the parents of each child who ask what they can do at home?
6. You have been working with a child for the past 6 weeks, using the tools you have learned in the Guidance & Emotional Wellness class. The child is not showing any signs of change. Create a plan of action for how you will share this information with parents and what information you will offer.
