Care About Childcare

Dear Director,

The transition to kindergarten is one of the most significant moments for young children and their families. Private child care providers play an important role in preparing children for a successful transition. Many providers spend thoughtful hours reading to children about kindergarten and talking with children about their hopes and fears.

Connecting with the receiving kindergarten is another way providers can help bring continuity to families as they move from child care to elementary school.

The Utah State Board of Education, the Office of Child Care and the Head Start Collaboration Office would like to gather more feedback about what supports or resources might be useful to child care providers in planning for kindergarten transitions.

Please follow the link to fill out the survey by **Friday, July 27, 2018**.
